Moorookyle Park Thoroughbreds-Booking Form 2014 Season

- All horses on the property are fed twice daily plus pasture
- Daily Agistment rate- Dry mares- \$17 per day plus GST
- Daily Agistment rate- Wet mares- (in foal-last trimester or with foal at foot)- \$18 per day plus GST
- Daily Agistment rate- Weanlings- \$15 per day plus GST
- Daily Agistment rate- Yearlings- \$17 per day plus GST
- Boxing of Mares or Foals or Both if sick- \$30 per day plus GST
- Foaling down fee- \$500 plus GST
- Weaning of foals fee - \$350 plus GST
- Vaccinations/Drenching- all mares will be vaccinated (2 in 1) and drenched upon arrival at Moorookyle. Mares and foals will then be routinely drenched and their hooves will be trimmed and teeth attended to as required. This bears an additional cost.
- Insurance. It is the mare owners responsibility to ensure that the mare and or foal are insured against all risk whilst the horse is in transit (to and from) and at Moorookyle Park.
- Veterinary Care. Moorookyle Park uses the veterinary services of Ballarat Equine Clinic. Any vet accounts will be forwarded directly to the owners at the end of each month by Ballarat Equine Clinic. Routine and emergency vet care services may be requested at the discretion of the stud with the costs charged directly to the owner by Ballarat Equine Clinic. In the case of an emergency the owner will be contacted, however the stud reserves the right to undertake any action necessary to maintain the health and welfare of the mare and/or foal in question. Whilst all care is taken, the stud accepts no responsibility for any accident, death, disease or injury to any horse whilst on the stud property.
- Documentation. No mare will be covered until all her documentation arrives on stud.
- Timing of coverings will be at the stud's discretion, but will not take place before the 1st of September in any season. The stud reserves the right to continue covering up until the 20th December at its discretion.
- Should the mare depart the stud after covering but prior to any veterinary examinations being performed, proper pregnancy testing must be sought by the owner and carried out at 15, 30 and 45 days to ensure the mare is in foal.
- For the purpose of pregnancy testing, pregnancy includes a twin pregnancy. Should the mare have twins, selective reduction from a multiple pregnancy to a singleton pregnancy will be undertaken without consultation, unless otherwise stated by the mare owner at the start of the breeding season. The vet will do this to the best of their abilities.
- Walk-in mares will be served at the discretion of the stud master. Mares will not be covered unless accompanied by a vet certificate stating that they are ready to be covered.
- Inspections. Stud season is a very busy time. We appreciate your interest in your mare. To inspect your mare an appointment must be made at least 48 hours prior due to the amount of stud work being performed.
- Invoicing. All agistment and associated costs must be fully paid before your mare leaves the stud. All services fees for successful coverings will be invoiced on 1st February 2014 on 30 day terms. Fees may be paid by credit card.
